

YOLANDA MBANDE

Junior Software Developer

yolandambande60@gmail.com | 065-711-0159 | Bluedowns, Cape Town

SUMMARY

Motivated Software Developer and Computer Science Graduate with hands-on experience building web applications, writing maintainable code, and handling end-to-end technical support. Proficient in object-oriented programming (Java, PHP, C#), web frameworks (Laravel, JavaScript, HTML/CSS), and database management. Skilled in version control workflows using Git and GitHub, performing unit testing, and applying clean code principles. Demonstrates strong analytical problem-solving skills, excellent teamwork, and a continuous learning mindset eager to contribute to real-world software projects at Gradlinc.

CORE COMPETENCIES

- **Languages & Frameworks:** Java, PHP, C#, JavaScript, HTML5, CSS3, Laravel Framework, REST APIs
- **Developer Tools & Version Control:** Git, GitHub, Git Bash, Command Line Interfaces, Laravel Tinker
- **Software Development Practices:** OOP Principles, Debugging, Code Reviews, Basic Software Testing, Systems Analysis
- **Databases & Environment:** SQL/MySQL, Relational Database Design, Migration Management
- **Development:** Web Application Development, REST APIs, Database Management, Debugging, Testing, Data Validation
- **Soft Skills:** Logical Problem Solving, Analytical Thinking, Clear Communication, Agile Collaboration, Growth Mindset

WORK EXPERIENCE

Junior Software Developer | Spacebar Solutions (Pty)

Sep 2025 – Jun 2026

- Developed and maintained web applications using PHP and Java.
- Collaborated with team members to understand requirements and implement software solutions.
- Investigated application issues, identified underlying causes, and implemented appropriate fixes.
- Worked with databases to manage, retrieve, and validate application data.
- Used Git for version control and worked within an organised development workflow.
- Tested application functionality and debugged issues to improve reliability and maintainability.
- Tested application functionality and debugged issues to improve reliability and maintainability.
- Adapted to changing requirements and continuously developed technical knowledge through hands-on work.

Software Developer Intern | Teambix (Pty) Ltd

Aug 2024 – Aug 2025

- Collaborated with senior developers to design, develop, and maintain web applications using PHP, Laravel, and JavaScript.
- Wrote clean, efficient, and well-documented code while executing bug fixes and system optimizations.
- Conducted database queries and schema updates using Laravel Tinker and SQL migration rollbacks.
- Participated in daily technical discussions, brainstorming sessions, and project planning meetings.
- Collaborated with team members to test application features and ensure responsive design across devices.

Academic Mentor | Tshwane University of Technology

Jun 2023 – Dec 2023

- Supported students by identifying and understanding their academic and technical challenges.
- Facilitated one-on-one and group guidance for students facing technical and academic roadblocks, maintaining a calm, reassuring approach under pressure.
- Translated complex procedures into clear, accessible language to help individuals stay committed to their learning goals.

EDUCATION

Diploma in Computer Science

Graduated 2025

Tshwane University of Technology

- **Academic Verification:** Passed final examinations; full transcripts and graduation certificate available.
- **Core Modules:** Software Development, Systems Analysis, Operating Systems, Database Systems, Network Security Concepts, Technical Communication.

PROJECT HIGHLIGHTS

- **Web Application Feature Development:** Developed responsive web interfaces using HTML/CSS, JavaScript, and Laravel, integrating backend REST APIs for seamless data retrieval.
- **Database & Version Control Management:** Managed local development environments, tracking changes with Git Bash and pushing structured repository updates to GitHub.
